

CALL: LIFE-TASK (STATE-PLAN FOR FACING CLIMATE CHANGE.)

The Provincial Science, Technology, Innovation and Environment Directorate of Provincial Administration Council is pleased to summon researchers, authorities, educators, specialists, managers, businessmen, professionals, producers and others to participate in the "Workshop on lessons learned about the results in the implementation of State-Plan to confront climate change in Artemisa Province;" to be held on February 27th, 2020.

Objective:

Exchange on the progress of State-Plan implementation to confront climate change; fostering a space for scientific and academic debate that allows us to evaluate the effectiveness, efficiency, and control of the provincial schedule at the end of a short period (2017-2020).

Delivery date: For oral presentations and posters, from January 3rd to February 13th, 2020 in PDF or PWP format.

In its content: The implementation achievements, difficulties and actions to manage their solution will be summarized.
